Education

M.S. Harbin Institute of Technology, Mathematics

Harbin, China

- Student**
- Supervised by Professor Jianwei Ma.
 - Research areas include computer vision and machine learning.

B.S. Harbin Institute of Technology, Mathematics

Harbin, China

Research Interests

- Theory and applications of diffusion generative models
- Theoretical analysis and empirical explanations for neural network interpretability

Research Skills

Areas: Machine learning, computer vision, diffusion models, neural network interpretability

Languages: Chinese (native), English
